Welcome! Start Here ➤

Setting up your TiVo Roamio™ OTA DVR is easy.

Activate the TiVo® service (if you haven’t already).
The TiVo service is what makes your TiVo Roamio OTA smart. It includes everything from
your program listings to OnePass and WishList® searches—all the cool features you’ve heard about.

Some TiVo DVRs are sold with a TiVo service plan. If yours was not, activate the TiVo service by calling TiVo Customer Support at 1-877-367-8486. You’ll need your 15-digit TiVo Service Number (TSN), found on the label on the back of the Roamio OTA.

Write it here for reference ___________________________.

Receive TV on your TiVo Roamio OTA using an HDTV antenna.

To get started connecting your TiVo Roamio OTA, go to step 1.

Set up your TiVo Roamio OTA in 6 easy steps.

1. Get to know your cables

- HDMI® cable for high-definition video and digital audio.
- Coaxial RF cable for connecting to an HD antenna.
- Ethernet cable for connecting to the Internet.
- Power adapter (included).

2. Connect to the antenna

Connect an HDTV antenna to the CABLE/ANT port on the back of the DVR.

3. Connect to the Internet

The TiVo Roamio OTA needs a high-speed network connection to receive program listings,
TiVo service updates, and streaming content. The wired and wireless connection methods
listed below are all sufficient for these purposes. However, if you plan to have multiple TiVo
boxes in your home and would like to stream shows between them, or if you want to stream
shows to your tablets or smartphones using the TiVo Stream (sold separately; for
compatibility of streaming function with iOS and Android™ mobile devices, see
www.tivo.com/stream), you must use a wired connection (Ethernet or MoCA®).

Choose one of the connection types below. (Don’t worry, you can always change
this later.)

- Wireless – use your DVRs built-in wireless connection. You don’t need to
  connect any additional cables or adapters.
- Ethernet (wired) – Connect an Ethernet cable from the TiVo DVR’s
  ETHERNET port to an open port on your router or to an Ethernet jack in your
  wall.
- MoCA (wired) – MoCA (Multimedia over Coax Alliance) gives you the same
  high-speed connection you get through a wired Ethernet cable, but it delivers
  it through your existing coax cable—the same cable you use to get cable
  internet. If you already have a MoCA network in your home, connect an
  Ethernet cable from the TiVo DVR’s ETHERNET port to the Ethernet port of a
  MoCA network adapter (available at your local retailer). If you don’t have a
  MoCA network yet, or if you need help setting up your network adapter, visit
  tivo.com/support.

4. Connect to your TV

Connect an HDMI cable from the HDMI port of the TiVo box to the HDMI port on the back of your TV.

If your TV does not have an HDMI port, use tivo.com/support for additional installation instructions.

5. Plug in the power adapter

The TiVo Roamio OTA’s front panel displays a green light at startup.

6. Complete Guided Setup

Turn on your TV. After the TiVo Roamio OTA starts up, you’ll see a Welcome screen.

When you see the Welcome screen, you’re ready to begin Guided Setup. Just follow the on-screen instructions.

Note: If you don’t see the Welcome screen, use the Input, Source, or TV/Video button on your TV remote or TV to select the correct video input source.

Once you’ve completed Guided Setup, turn this poster over to learn more about using your TiVo Roamio OTA!

Title DVR Limited Warranty

Satisfaction guaranteed by TiVo, Inc.

WHAT IS COVERED?

This warranty covers any defect in material or workmanship, or any unauthorized modification to your DVR as long as it is used for its intended purpose and not for commercial or institutional purposes. Your TiVo DVR Limited Warranty is effective from the date of purchase and extends until the end of the warranty term. TiVo, Inc. is responsible for any computer-generated repair invoices for parts or labor paid to a third-party service provider for repair of your DVR.

WHAT IS NOT COVERED?

This warranty does not cover
- Any non-TiVo products, including but not limited to any TiVo product not purchased directly from TiVo, Inc. (including any TiVo product purchased at a thrift store, garage sale, or other non-TiVo retailer). We do not accept TiVo DVRs that have been repaired by others.
- Products used for commercial or institutional purposes.
- Products that are used in an unsafe or unauthorized manner.
- Products damaged by or as a result of modifications, tampering, or misapplication.
- Products damaged by or as a result of misuse, abuse, neglect, or accident.
- Normal wear and tear.
- Non-defective products.
- Problems due to improper installation, use, care, or maintenance.
- Problems caused by any acts of God.
- Problems caused by a product (or part thereof) not purchased directly from TiVo, Inc. (including any TiVo product purchased at a thrift store, garage sale, or other non-TiVo retailer).
- Problems caused by any third-party service provider.

HOW TO OBTAIN SERVICE

BEFORE YOU REQUEST WARRANTY SERVICE

MAKE SURE YOU KEEP...

- The original sales receipt or other document showing the date of purchase.
- The serial number of the DVR.
- The model number of the DVR.

Also, avoid stacking your TiVo DVR on top of other electronic components — such as DVD players, A/V receivers — or the vents of your TV. (Provided they have four good, broad, padded feet that distribute the weight near the corners of the TiVo DVR).

Make sure all your equipment is turned off and the TiVo DVR is unplugged.

Safety Information

1. Purpose of Safety Information

This product was designed and manufactured in accordance with recognized and generally accepted safety and technical standards in effect at the time the product was made.

2. Power Sources — This product should be operated only from the type of power source indicated on the marking label. If you are not sure of the type of power source available, consult your local power company or a TiVo authorized dealer or service center.

3. Heed Warnings — All warnings on the appliance and in the operating instructions should be followed.

4. Follow Instructions — All operating and use instructions should be followed.

5. Ventilation — Slots and openings in the cabinet are provided for ventilation and to ensure reliable operation of the product and to protect it from overheating.

6. Power Cords — Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them.

7. Lighters — Do not place a vehicle or a vehicle load on the power cord.

8. Outdoor Antenna Grounding — If an outside antenna or cable system is connected to the product, be sure the antenna or cable system is grounded so as to provide some protection against voltage surges and built-up static charges.

9. Power Lines — An outside antenna system should not be located in the vicinity of overhead power lines or other electric light or power circuits, or where it can fall into such power lines or circuits.

10. Power Cord Protection — Power supply cords should be routed so that they are not likely to be walked on or pinched by items placed upon or against them.

11. Power Line Interference — For this product, any connection to a television equipment or computer system shall be made using shielded interface cables.

12. Servicing — Do not attempt to service this product yourself as opening or removing covers may expose you to dangerous voltage or other hazards. Refer all servicing to qualified service personnel.

13. Replacement Parts — When replacement parts are required, be sure the service technician has used replacement parts specified by the manufacturer or have the same characteristics as the original part. Unauthorized substitutions may result in fire, electric shock, or other hazards.

14. Cleaning — Unplug this product from the wall outlet before cleaning. Do not use liquid cleaners or aerosol cleaners. Use a damp cloth for cleaning.

15. Damage Requiring Service — This product should be serviced by qualified service personnel when: a) The power supply cord or the plug has been damaged; or b) Objects have fallen; or c) Liquid has been spilled into the product; or d) The product has been exposed to moisture; or e) The product does not operate normally; or f) The product has been dropped or damaged.

16. Overloaded Power Outlets — Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.

17. Coaxial Cable Grounding — For this product, the coaxial cable shield/screen shall be grounded as close as practical to the point of entry of the building. For products sold in the US and Canada, this is per Article 800-93 and Article 800-100 of the NEC (or Canadian Electrical Code).

18. Protective Attachment Plug — Provided with this product is a protective attachment plug which you must use in accordance with local codes and ordinances.

19. Power Cord — The power cord of this product is equipped with a protective attachment plug for your protection and should be plugged into a protective attachment outlet to provide proper earthing. (See instruction label.)

20. CAUTION — Danger of explosion if battery is incorrectly replaced. Replace only with the same or equivalent type recommended by the manufacturer. Disposal of used batteries must be in accordance with your local codes and ordinances.

When you finish Guided Setup, you’ll see the TiVo Central screen, the starting point for everything with your TiVo Roamio OTA. You can always reach the TiVo Central screen by pressing the TiVo button on your remote control.

OnePass gathers every episode of a series available from any of your video providers and adds them right to your My Shows list. If it's not available on TV or on demand, OnePass fills in the gaps with episodes from other streaming video providers like Netflix, Amazon Prime, and more.

The TiVo Roamio OTA Remote

Press the TiVo button at any time to go to the TiVo Central screen. Press twice to get to your My Shows list from any other screen.

Control playback: on TV and recorded shows: fast-forward, rewind, pause, or play in slow-motion.

The Control playback screen is designed to make it easy to pause, fast-forward, rewind, and play in slow-motion. The 8 buttons sort and filter views. Look for the on-screen tips.

OnePass

iPad, iPhone and iPod touch are registered trademarks of Apple Inc.

Netflix is a registered trademark of Netflix, Inc.

TiVo Central

Watch the TiVo Central menu screen, the starting point for everything with your TiVo Roamio OTA. You can always reach the TiVo Central screen by pressing the TiVo button on your remote control.

The TiVo Central menu screen contains categories that help you quickly locate shows in the list.

**My Shows**

- What you want to watch, when you want to watch it. Just select Find TV, Movies, & Videos for available options.
- My Shows contains categories that help you quickly locate shows in the list.

**Streaming Services**

- Get to know your TiVo Roamio™ OTA Streaming Services.
- Streaming Services contains categories that help you quickly locate shows in the list.

**Program Guide**

- The on-screen program guide displays up to two weeks of TV programming at the touch of a button — the GUIDE button on your remote control.
